\*) Stand: 01/14

## HELIOS test bench for WINneo® and WINsystem® dryer

- DISCHARGING
- CONVEYING
- DEDUSTING
- DRYING

The perfect partner for material handling

### serial dryer calibration

All HELIOS dryers of the series WINneo®, WINsystem® and HELIOMAT® are tested and calibrated on delivery for:

- 2 drying temperatures
- 3 drying air volume flows
- 2 dew point values (not for WINneo®)

A calibration certificate is issued on delivery of the dryer.

Meßeinrichtung		Messung		Zertifikat Nr.	
Temperaturmessgerät mit PT 100 S-Draht	GMH 3750 mit GTF 411 1/3 DIN	2019 / 2020			
Generalkalibration Maßgröße	GF M 77	16047			
National-Meßgröße					

Meßergebnisse		Gas-Volumenstrom (l/min)		Gas-Taupunkt (°C)	
Gas-Temperatur (°C)		Set	Me	Set	Me
70	72	A	20	-23	-25
120	123	B	45	-05	-08
		C	80	-02	-02

### follow-up calibration

We offer a follow up calibration in our services. This can be done either locally or at HELIOS in Rosenheim/Germany. The customer receives an updated calibration certificate accordingly.

An interim dryer control (JetBox) is ready for delivery on demand for the time of calibration. The dryer control (JetBox) is detachable without the use of tools.
